

## Understanding and Managing ADHD in Young Children Parent Group Program\*

This program is for parents of children ages 3.5 to 5 years *who have been or are at risk for being diagnosed with ADHD*. Parents get an up-to-date understanding of ADHD and how it affects their child's behavior, as well as learn how to use specific evidence-based strategies to give their young child the structure and guidance they need to succeed both at home and in day care, preschool, or kindergarten. Sessions are held on the same day each week for a total of 8 sessions, each lasting 90 minutes. Each session builds on what is covered in prior sessions, so parents should plan to attend all 8 sessions to get the greatest benefit from the program.

## Academic Success for Young Adolescents with ADHD Group Program\*

This program is designed for young adolescents in sixth through eighth grades who are experiencing academic difficulties as a result of ADHD. It teaches adolescents and their parents proven strategies to improve organization, time management, and study skills. This program is held only at the Center for ADHD. There is a total of 7 group sessions, each lasting 90 minutes, which the adolescent and their parent attend together. Since the material in each session builds on what is covered in earlier ones, it is important that participants plan to attend all 7 sessions. In addition, a pre-group interview with the parent(s) is required.
